"My journey into web development started when I came across a website so beautiful it left me amazed. That moment sparked my passion for frontend development—I want to create websites that not only function well but also captivate and inspire users. With a foundation in the MERN stack and hands-on project experience, I'm committed to designing and building web applications that people truly enjoy."

Technical Skill

- Frontend: React.js, HTML5, CSS3, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB
- Version Control: Git, GitHub
- Other: JSON, npm

Soft- skill

- Problem-solving
- Decision-making under pressure
- Adaptability
- Communication
- Teamwork

Experience

Bootcamp, Generation Thailand

June 2025 - September 2025

Full-Stack Web Development

- Completed intensive training in MERN Stack (MongoDB, Express.js, React.js, Node.js) and professional soft skills (teamwork, communication, problem-solving).
- Designed and implemented databases using MongoDB, developed RESTful APIs with Express.js/Node.js, and built responsive frontends with React.
- Collaborated in Agile team projects simulating real-world software development.

Quality Assurance Associate

November 2024 - May 2025

Innovative Food and Beverage Co., Ltd.

- Conducted on-site quality inspections at multiple manufacturing partner sites to ensure production processes and product standards were consistently met
- Made real-time decisions and reported issues or deviations directly to supervisors for timely resolution
- Collaborated with production teams across different companies, demonstrating interpersonal and communication skills
- Planned and coordinated laboratory testing schedules for incoming products to ensure compliance with company quality standards

Projects

E-Commerce Laundry Service App

June 2025 - September 2025

- Built a full-stack web application for laundry services in dormitories.
- Implemented full CRUD operations for managing orders and services.
- Designed and structured the MongoDB database, integrated React with Node.js/Express.

Note Sharing App

- Developed a note-taking web application with user authentication.
- Enabled users to create, edit, and publish notes to share with others.
- Built with MERN stack, including MongoDB for data persistence and React

Education

Kasetsart University

2020 - 2024

Second-class honors

Bachelor of Science in Food Science and Technology
